

# Indigenous Knowledge and Perspectives: Core French 5–12

## Context

In B.C.’s redesigned curriculum, Indigenous knowledge and perspectives are integrated throughout all areas of learning and are evident in the curriculum’s rationale statements, goals, big ideas, mandated learning standards, and elaborations. The First Peoples Principles of Learning offer a crucial lens for curriculum, placing a significant importance on the authentic integration of Indigenous knowledge and perspectives in relevant and meaningful ways.

The intent behind this integration is to promote a growing understanding of Indigenous peoples in B.C. that will contribute to the development of educated citizens who reflect on and support reconciliation. This approach to Indigenous education encourages enlightened discussion among teachers and students in all areas of learning and grade levels, and this approach values and prioritizes Indigenous knowledge and perspectives that can only be found in B.C.

## Purpose

The *Indigenous Knowledge and Perspectives: 5–12 Core French Curriculum* resource is intended to support teachers in authentically integrating Indigenous knowledge and perspectives into their classrooms. This resource provides a detailed overview of the explicit and implicit references to Indigenous knowledge and perspectives in the Big Ideas, Curricular Competencies, and Content throughout the 5–12 Core French curriculum.

## Explicit References

Explicit references include the Big Ideas, Curricular Competencies, and Content that directly refer to Indigenous knowledge and perspectives. For example, the Grade 6 Core French curriculum includes the following explicit reference:

Grade 6, Curricular Competency, **Explore connections between First Peoples communities and the French language**

⇒ *for example, First Nations, Métis, and Inuit communities in Canada where French is spoken (e.g., Huron Wendake Nation, Innu Nation, Micmac Nation, and Mohawk Nation in Quebec; Métis communities in Baie St. Paul, MB, Fort Nelson, BC, and Île-à-la-Crosse, SK)*

## Implicit References

Implicit references are Big Ideas, Curricular Competencies, and Content that indirectly refer to Indigenous knowledge and perspectives. For example, the Grade 9 Core French curriculum includes the following implicit reference:

Grade 9, Big Idea, **We can share our experiences and perspectives through stories.**

⇒ *Stories are a narrative form of text that can be written or visual. Stories are derived from truth or fiction and may be used to seek and impart knowledge, entertain, share history, and strengthen a sense of identity.*

The implicit references included in this resource represent just one perspective and should not be considered the only interpretation. Identifying implicit references depends on personal and cultural background, prior knowledge and experience, subject-matter expertise, points of view, and connections to place\*. As such, the implicit references in this resource serve only as a guide and should not be viewed as a conclusive list.

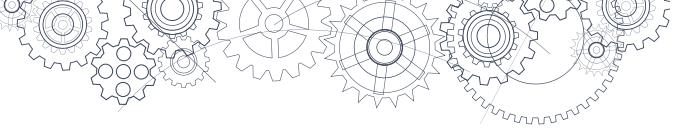

Note on Elaborations: Explicit references to Indigenous knowledge and perspectives that are found within the Elaborations of Big Ideas, Curricular Competencies, or Content are considered *implicit* unless they are accompanied by an explicit reference in the Big Ideas, Curricular Competencies, or Content.

The key below shows how the information in the chart is structured:

Bolted print	Mandated Learning Standard
•	Sub-points of a Learning Standard
⇒	<i>Elaborations</i>
○	<i>Key questions or samples</i>

\*Place refers to any environment, locality, or context with which people interact to learn, create memory, reflect on history, connect with culture, and establish identity.
